Public Comment

Hello Council Members and Happy Holidays!

When will the 2023 Council Meeting schedule and your 2023 Policy Recommendations be published?

I am an energy consultant for Trinity, a solar stakeholder with the RIOER, and a policy advocate for Climate Action RI (CARI). I applaud the results detailed in the 2022 ANNUAL REPORT. I'd like to better understand your 2023 Policy Recommendations given the Inflation Reduction Act. The law will now provide direct consumer rebates and tax credits to purchase more efficient appliances, provide up to \$7,500 in tax credits for Americans to purchase electric vehicles, and create millions of good-paying jobs making and deploying clean energy in America.

I am passionate about helping Rhode Island lead the nation in the transition to clean energy.

Sincerely,
Glenn Rhodes
